Research Infrastructure**

Research Scholarship Announcement

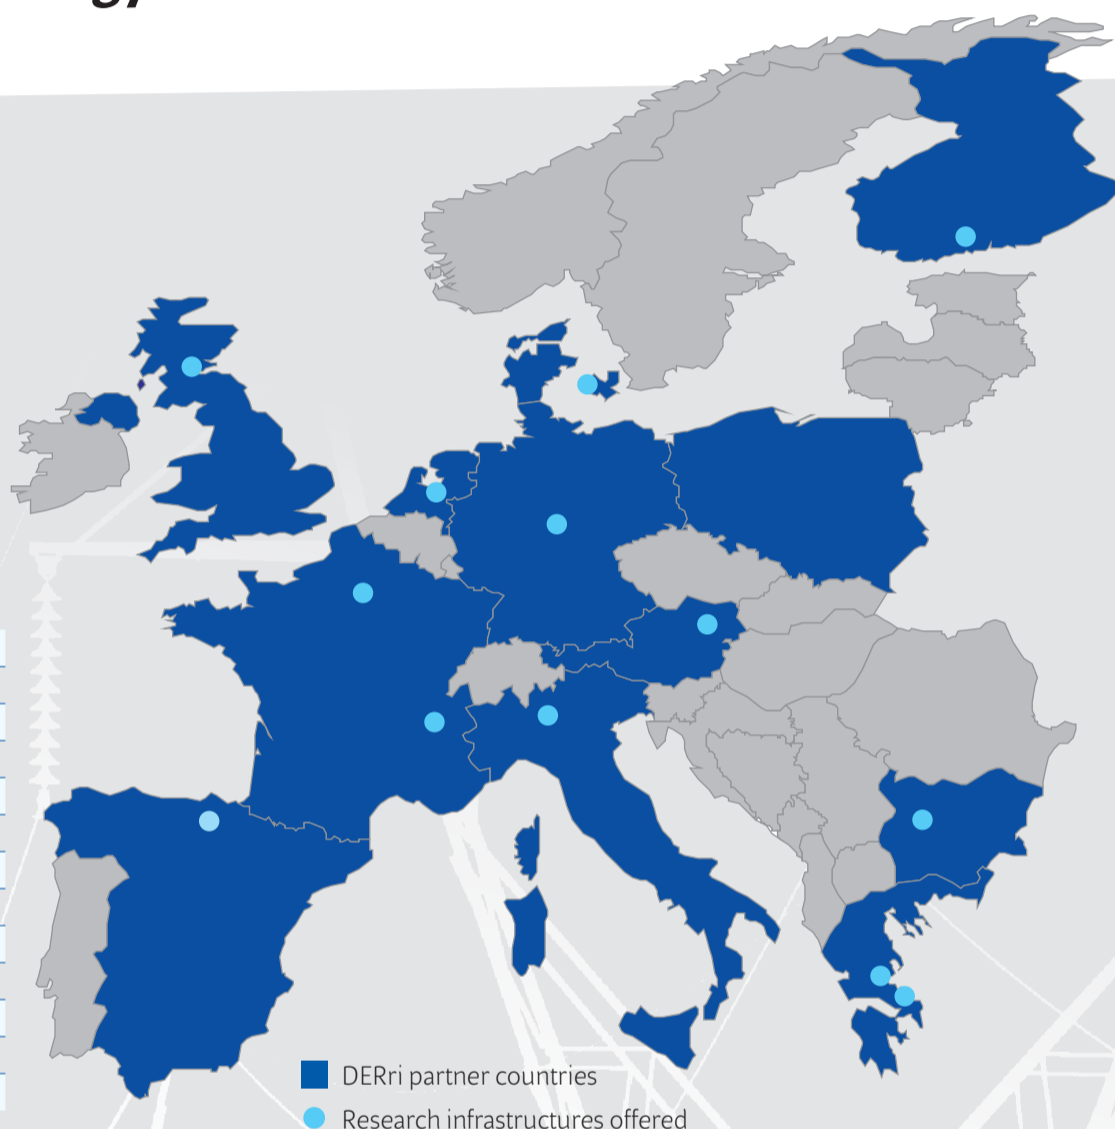

Opportunities for European Energy Researchers - Free of Charge

DERri

DERri - Distributed Energy Resources Research Infrastructure - is a collaborative research project under the European FP7 programme among 16 partners (from 12 countries distributed all over Europe) with DER research infrastructures and leading DER expertise. The project provides European research communities the opportunity for transnational access to the DERri partners Research Infrastructures.

Research Infrastructures offered

RSE	Ricerca sul Sistema Energetico	Italy
AIT	Austrian Institute of Technology	Austria
CEA-INES	The French National Institute for Solar Energy	France
CRES	Centre for Renewable Energy Sources and Saving	Greece
EDF	The EDF group	France
IWES	Fraunhofer IWES	Germany
Risø DTU	Technical University of Denmark	Denmark
TECNALIA	TECNALIA Research & Innovation	Spain
KEMA	KEMA Nederland BV	The Netherlands
NTUA-ICCS	National Technical University of Athens	Greece
TUS-RDS	Technical University of Sofia	Bulgaria
VTT	Technical Research Centre of Finland	Finland
USTRAT	University of Strathclyde	United Kingdom

For European DER Research Groups

User Groups can access the best infrastructures for conducting their research projects in the field of Distributed Energy Resources. See the project website for further information.

Free of Charge

There are no costs for the Users to access and use the installations offered by the Research Infrastructures. All expenses, including travel and accommodation are reimbursable, under the conditions agreed with the hosting infrastructure.

The last deadline for submission of applications is the 31st of March, 2013.

Apply now!
